further comprising using one of said cropped PDF pages as an alignment standard for said feature;

wherein said using further comprises identifying a largest of said cropped PDF pages as said alignment standard;

selecting a feature common to all of said cropped PDF pages ;

wherein said selecting further comprises applying one or more predetermined alignment rules; and

further comprising:

warning a user when said bounding boxes are of different sizes;

and

allowing the user to define new alignment rules;

further comprising using one of said cropped PDF pages of each of said sets as an alignment standard for said selecting of the respective said feature;

wherein said using further comprises identifying a largest of said cropped PDF pages in each of said sets as the respective said alignment standard;

selecting different first and second features of said cropped PDF pages, said first feature being common to all of said cropped PDF pages of said first set, said second feature being common to all of said cropped PDF pages of said second set;

wherein said selecting further comprises applying one or more predetermined alignment rules; and further comprising:
